

Cellular Respiration Assignment

On the paper provided you will write out all of the phases of aerobic cellular respiration

- Glycolysis
- Transition Reaction
- Krebs
- Oxidative Phosphorylation

In addition you will include the location of each of the phases.

Use colour and arrows to clearly indicate all products and how the phases are connected.

Evaluation:

Content- All phases are complete and correct. *

0 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15

Titles and location: *

0 1 2 3 4 5

Creativity and clarity (use of colour etc.)

0 1 2 3 4 5 6 7 8 9 10

***If you make a mistake you lose a mark. So don't make a mistake!**
